Compact Drive System for Automated Guided Vehicles (AGV)

A New Standard in AGV Market

DD1 package includes wheels, electric motor, gearbox, incremental encoder and safety brake in a all-in-one compact solution.

DD1 SERIE becomes the most compact and powerful transmission on the market.

The combination of small and powerful motors with the slow gear ratios allows DD1 SERIE works always at maximum efficiency conditions.

DD1 SERIE becomes the most compact and powerful transmission on the market.
